OUR HISTORY

DRS Precision Component Pvt. Ltd. (Formerly known as Hi-Tech Engineering) was established in 2016 with a mere 500 square feet of rented space and limited infrastructure . Today, the company stands on industrial campus of 20000 square feet with work force of more than 100 employees producing millions of parts every month ranging from 2 mm to 25 mm.

At DRS we manufacture high-quality, custom- engineered precision components on CNC sliding head 5-Axis, catering to a wide range of industries such as:

Electrical,
Automobile,
Medical,
Defence &
Diamond Industry

**"QUALITY WHICH IS READY TO MEET
EVERY NEED"**

ABOUT US

At DRS Precision, we utilize state-of-the-art technology and cutting-edge manufacturing processes to produce precision components that meet the unique needs of our clients.

List of machinery Includes:

Tonos 2mm to 28mm(cam operated sliding head) - 138 Nos

Tsugami 20mm (CNC Sliding head 5-Axis) - 5 Nos

Other SPM for Tapping, Cam Milling, Slotting, Milling, Tool Lapping, Deburring etc.

WHY CHOOSE US?

Being 9001:2015 certified we are committed to maintaining a robust quality management system, ensuring that every product undergoes rigorous testing and quality checks to meet global standards.

We utilize state-of-the-art technology and cutting-edge manufacturing processes to produce precision components that meet the unique needs of our clients.

With over 10 years of experience in the field, we specialize in manufacturing precise small and micro components that adhere to the highest industry standards and ensure exceptional performance, reliability, and durability
